

ADVANCED SAFETY LEADERSHIP

Start Date:	12/10/2025	End Date:	16/10/2025
Categories:	HSSE	Venues:	Barcelona
Formats:	In Person	Instructors:	

OVERVIEW

The Advanced Safety Leadership training equips professionals with tools and knowledge to move beyond compliance-driven safety management and develop the skills to inspire, influence, and sustain a proactive safety culture. Participants will learn how to anticipate risks, lead under pressure, and embed safety excellence into every level of their organization by analyzing the human factors and psychology that influence safety culture.

OBJECTIVES

By the end of this course, participants will be able to: – Demonstrate advanced leadership techniques that drive safety performance. – Identify and control emerging risks using predictive safety tools and strategies. – Engage and influence employees at all levels to adopt safe work behaviors by applying effective motivational techniques. – Integrate safety culture transformation strategies into business operations. – Apply decision-making and crisis leadership skills during high-pressure situations. – Use advanced performance metrics to measure and improve safety outcomes.

COURSE OUTLINE

1. Introduction & Course Objectives 2. The Role of the Safety Leader 3. Advanced Risk Management 4. Influencing & Engaging the Workforce 5. Safety Culture Transformation 6. Leadership Decision-Making Under Pressure 7. Accountability & Performance Management 8. Legal, Ethical & Corporate Governance 9. Technology & Innovation in Safety 10. Action Planning & Commitment
