

COMPLIANCE & INTERNATIONAL STANDARDS IN LNG SHIPPING (IMO, SIGTTO)

Start Date:	12/01/2026	End Date:	16/01/2026
Categories:	Oil & Gas	Venues:	Madrid
Formats:	In Person	Instructors:	

OVERVIEW

This program focuses on international regulations and industry standards governing LNG shipping. Participants will explore the application of IMO codes, SIGTTO guidelines, and other frameworks to ensure safe and compliant maritime operations.

OBJECTIVES

- Understand international LNG shipping codes and regulations.
- Apply IMO, SIGTTO, and ISO standards to LNG marine operations.
- Audit LNG shipping operations for compliance.
- Enhance onboard safety and emergency readiness.
- Manage documentation and vetting requirements.

COURSE OUTLINE

- LNG Maritime Regulations: IMO, SOLAS, IGC Code
- SIGTTO Guidelines and Best Practices
- Safety Management Systems Onboard
- Documentation and Vetting Procedures
- LNG Ship-Shore Interface and Risk Management
- Port State Control and Marine Incident Response

TARGET AUDIENCE

Ship operators, marine HSE officers, compliance managers, LNG shipping professionals.

METHODOLOGY

Standard-based instruction, regulation mapping, incident analysis, and compliance simulations.

CONCLUSION

Participants will be able to interpret and apply maritime safety codes and audit LNG shipping operations effectively.

DAILY AGENDA

Day 1: Regulatory Framework

Introduction to IMO, SOLAS, IGC and key LNG maritime rules.

Day 2: SIGTTO Standards

Review of key SIGTTO guidance and implementation.

Day 3: Onboard Safety Systems

SIS, documentation, audits, and safety drills.

Day 4: Ship-Shore Interface

Risk-based procedures for docking, loading, and control.

Day 5: Incident Review & Compliance

Incident case studies, response strategies, and audit checklists.
