

CFO THINKING: STRATEGIC FINANCE FOR SUPERVISORS

Start Date:	21/06/2026	End Date:	25/06/2026
Categories:	Finance & Accounting	Venues:	Dubai
Formats:	In Person	Instructors:	

OVERVIEW

This course is designed to bridge the gap between operational supervision and strategic financial management. Participants will learn how to adopt a CFO mindset, interpret financial data, align departmental goals with corporate financial strategies, and contribute to long-term financial health and decision-making.

OBJECTIVES

By the end of this course, participants will be able to: - Understand the key responsibilities and strategic role of a CFO in modern organizations. - Interpret and analyze financial statements for decision-making. - Align operational activities with financial goals and budgetary control. - Apply financial forecasting, ROI analysis, and cost control methods. - Support strategic planning through financially-informed supervision.

COURSE OUTLINE

1- Evolving Role of Finance in Business Leadership 2- Understanding Financial Statements: Income, Balance & Cash Flow 3- Budgeting, Forecasting & Financial Planning Tools 4- Strategic Cost Control & Investment Evaluation 5- Financially-Driven Decision-Making for Supervisors

TARGET AUDIENCE

All Supervisory Levels, Department heads, team leaders, operations supervisors, and aspiring managers looking to enhance their financial and strategic thinking capabilities.

METHODOLOGY

Instructor-led sessions, real-world case studies, group analysis tasks, financial planning exercises, and interactive budgeting simulations.

CONCLUSION

Participants will leave with the mindset and tools to actively contribute to their organization's financial success, translating strategy into action from the front lines.
