

ACCOUNTING FOR NON-ACCOUNTANTS

Start Date:	12/07/2026	End Date:	16/07/2026
Categories:	Finance & Accounting	Venues:	Dubai
Formats:	In Person	Instructors:	

OVERVIEW

This practical course demystifies accounting for professionals without a finance background. Participants will learn how to read financial statements, understand accounting terms, and use financial data to support smarter business decisions.

OBJECTIVES

By the end of this course, participants will be able to: - Understand key accounting concepts and financial terminology. - Read and interpret balance sheets, income statements, and cash flow statements. - Apply basic accounting principles to budgeting and cost control. - Analyze financial performance to inform operational and strategic choices. - Communicate more effectively with finance teams and stakeholders.

COURSE OUTLINE

1- Introduction to Accounting and Its Business Role 2- Understanding Financial Statements 3- Revenue, Expenses, Profit & Cash Flow Explained 4- Budgeting, Forecasting & Cost Control 5- Making Data-Driven Business Decisions

TARGET AUDIENCE

All Supervisory Levels, Managers, supervisors, entrepreneurs, administrators, and professionals who make financial decisions without formal accounting training.

METHODOLOGY

Real-world examples, financial statement analysis, budgeting exercises, team discussions, and simplified reporting walkthroughs.

CONCLUSION

Participants will walk away with confidence in using accounting insights for better planning, management, and business alignment.
