CORPORATE SECURITY-PROTECTING PERSONNEL & PROPERTY

Start Date:	12/07/2026	**End Date:**	16/07/2026
Categories:	HSSE	**Venues:**	Dubai
Formats:	In Person	**Instructors:**	

OVERVIEW

This course provides advanced strategies for protecting personnel, property, and critical infrastructure within corporate environments. Participants will learn how to assess threats, design layered security systems, develop emergency procedures, and implement integrated physical security measures that align with organizational resilience and business continuity goals.

OBJECTIVES

By the end of this course, participants will be able to: – Identify and assess internal and external threats to personnel, facilities, and assets. – Design and implement multi-layered physical security and access control systems. – Develop emergency evacuation, lockdown, and shelter-in-place procedures. – Integrate surveillance, intrusion detection, and alarm systems into comprehensive security programs. – Manage and respond effectively to incidents such as workplace violence, theft, or sabotage.

COURSE OUTLINE

1- Understanding Threats to Personnel, Facilities, and Corporate Assets 2- Physical Security System Design and Access Control Strategies 3- Emergency Response Planning: Evacuation, Lockdown, and Shelter-in-Place 4- Leveraging Security Technologies: Surveillance, Alarms, and Monitoring Systems 5- Incident Management: Prevention, Response, and Recovery

TARGET AUDIENCE

All Supervisory Levels, Corporate Security Managers, Facility Managers, Operations Supervisors, HR Managers, Crisis Response Teams, and professionals involved in protecting corporate personnel, property, and operations.

METHODOLOGY

The course uses a blend of theoretical instruction, facility security walkthroughs, hands-on security design workshops, tabletop exercises simulating emergency scenarios, and group discussions based on real-world incident cases.

CONCLUSION

Participants will leave the course equipped with the tools and knowledge necessary to implement comprehensive security measures that protect people and property, minimize vulnerabilities, and ensure organizational continuity in the face of threats.

DAILY AGENDA

Day 1: Threat Assessment for Personnel and Property Protection

Learn to identify and evaluate potential threats to employees, facilities, and critical assets within corporate environments.

Day 2: Designing Effective Physical and Operational Security Systems

Explore best practices for building layered defense systems including perimeter controls, access management, and surveillance solutions.

Day 3: Emergency Response Planning and Preparedness

Develop and implement evacuation plans, lockdown procedures, shelter-in-place strategies, and emergency communication protocols.

Day 4: Technology Integration for Enhanced Security

Integrate surveillance technologies, intrusion detection systems, alarms, and security monitoring for proactive threat mitigation.

Day 5: Incident Response, Management, and Recovery

Plan and execute responses to workplace violence, theft, and sabotage events, followed by post-incident recovery and lessons learned.
