EMERGENCY RESPONSE & CRISIS MANAGEMENT IN SEVERE SITUATIONS

Start Date:	19/07/2026	**End Date:**	23/07/2026
Categories:	HSSE	**Venues:**	Dubai
Formats:	In Person	**Instructors:**	

OVERVIEW

This course equips participants with the critical skills required to plan for, respond to, and manage emergencies and crises that escalate into severe or catastrophic situations. It emphasizes structured emergency response frameworks, leadership under extreme pressure, stakeholder coordination, and recovery strategies aimed at minimizing impact and ensuring operational resilience.

OBJECTIVES

By the end of this course, participants will be able to: – Recognize and assess high-severity emergencies and crisis escalation indicators. – Develop and activate emergency response plans for severe operational disruptions. – Lead coordinated multi-agency responses and manage resource allocation under critical conditions. – Implement crisis communication strategies for internal and external stakeholders during severe incidents. – Conduct post-crisis evaluations and enhance emergency preparedness and response frameworks.

COURSE OUTLINE

1- Identifying and Preparing for Severe Emergency and Crisis Scenarios 2- Developing Scalable Emergency Response and Incident Command Structures 3- Leadership, Decision-Making, and Resource Management in Severe Situations 4- Communication and Stakeholder Engagement During High-Severity Crises 5- Post-Severe Incident Recovery, Review, and Organizational Strengthening

TARGET AUDIENCE

All Supervisory Levels, Crisis Management Team Members, Emergency Response Coordinators, HSE Managers, Senior Operations Managers, Risk and Compliance Officers, Business Continuity Professionals, and personnel involved in emergency planning and crisis leadership.

METHODOLOGY

The course utilizes scenario-based simulations, emergency drills, crisis leadership workshops, communication exercises, structured case studies, and group problem-solving sessions focused on severe incident environments.

CONCLUSION

Upon completion, participants will have the ability to lead effective emergency responses in extreme situations, protect people and assets, manage complex stakeholder environments, and strengthen organizational resilience for future severe crises.

DAILY AGENDA

Day 1: Understanding Severe Emergencies and Crisis Escalation

Analyze types of severe emergencies, escalation warning signs, and the impact of catastrophic events on organizations.

Day 2: Building Scalable Emergency Response and Crisis Management Structures

Develop adaptable emergency response frameworks, assign command roles, and integrate incident management systems for severe situations.

Day 3: Leadership and Resource Management Under Severe Conditions

Strengthen decision-making and leadership capabilities when operating under high-pressure, resource-constrained environments.

Day 4: Crisis Communication and Stakeholder Management During Severe Incidents

Design and execute communication strategies that maintain transparency, trust, and coordination among diverse internal and external stakeholders.

Day 5: Post-Crisis Recovery, Review, and Building Long-Term Resilience

Lead post-incident reviews, analyze gaps in emergency response, and implement corrective actions to improve organizational preparedness for future severe events.
