RISK & CRISIS MANAGEMENT

Start Date:	27/07/2026	**End Date:**	31/07/2026
Categories:	HSSE	**Venues:**	Istanbul
Formats:	In Person	**Instructors:**	

OVERVIEW

This course equips participants with the critical skills needed to identify, assess, mitigate, and manage risks, as well as prepare for and respond effectively to crises. It provides a structured approach to risk management frameworks, crisis planning, response leadership, and recovery strategies, ensuring organizational resilience in dynamic and high-pressure environments.

OBJECTIVES

By the end of this course, participants will be able to: – Understand risk management principles and frameworks applicable to various industries. – Identify, analyze, and prioritize operational, financial, and strategic risks. – Develop and implement crisis management plans tailored to organizational needs. – Lead effective crisis responses, ensuring business continuity and stakeholder confidence. – Conduct post-crisis evaluations and integrate lessons learned into risk management improvements.

COURSE OUTLINE

1- Principles of Risk Management: Frameworks, Identification, and Assessment 2- Crisis Management Planning: Preparation, Teams, and Protocols 3- Crisis Leadership: Communication, Decision-Making, and Stakeholder Management 4- Business Continuity Planning and Emergency Response Coordination 5- Post-Crisis Analysis, Recovery, and Organizational Learning

TARGET AUDIENCE

All Supervisory Levels, Risk Managers, Crisis Management Team Members, HSE Officers, Compliance Officers, Operations Managers, Project Managers, and professionals responsible for organizational risk, business continuity, or emergency preparedness.

METHODOLOGY

The course employs interactive lectures, risk assessment workshops, crisis simulation exercises, case study analysis, emergency planning projects, and group discussions to build both strategic understanding and practical application skills.

CONCLUSION

Upon completing the course, participants will have the expertise to implement proactive risk management practices, lead crisis responses confidently, protect organizational assets, and drive continuous improvement in resilience and preparedness.

DAILY AGENDA

Day 1: Fundamentals of Risk Management and Risk Assessment

Explore the risk management process, risk identification methods, risk assessment techniques, and organizational risk profiling.

Day 2: Crisis Management Planning and Crisis Readiness

Develop structured crisis management plans, define crisis teams, and establish escalation and response protocols.

Day 3: Leading During Crises: Communication and Decision-Making

Learn leadership skills for crisis situations, including stakeholder communication, situational assessment, and decision-making under pressure.

Day 4: Business Continuity Planning and Emergency Response

Build business continuity strategies, design emergency response procedures, and ensure critical functions continue during disruptions.

Day 5: Post-Crisis Recovery, Evaluation, and Risk Framework Improvement

Analyze crisis events, perform lessons learned exercises, and update risk management frameworks to enhance future preparedness.
