SECURITY PLANNING & OPERATIONS

Start Date:	23/08/2026	**End Date:**	27/08/2026
Categories:	HSSE	**Venues:**	Dubai
Formats:	In Person	**Instructors:**	

OVERVIEW

This course provides participants with critical skills for designing, implementing, and managing security operations that protect organizational assets, personnel, and information. It emphasizes proactive security planning, operational execution, emergency preparedness, and continuous improvement, ensuring that security functions are fully aligned with business objectives and operational risks.

OBJECTIVES

By the end of this course, participants will be able to: – Develop comprehensive security plans based on threat assessments and operational requirements. – Manage day-to-day security operations, including access control, surveillance, and incident response. – Coordinate emergency preparedness, crisis management, and business continuity support. – Integrate physical security, manpower, and technological solutions into cohesive operational frameworks. – Continuously evaluate and improve security operations through audits, training, and performance monitoring.

COURSE OUTLINE

1- Foundations of Security Planning and Operational Management 2- Threat Assessment, Risk Analysis, and Security Plan Development 3- Operational Management of Physical Security and Surveillance Systems 4- Emergency Preparedness, Incident Response, and Business Continuity Integration 5- Evaluating, Auditing, and Enhancing Security Operations

TARGET AUDIENCE

All Supervisory Levels, Security Managers, Facility Managers, Operations Managers, Corporate Security Officers, Emergency Response Coordinators, HSE Officers, and professionals involved in managing or supervising security operations.

METHODOLOGY

The course blends technical instruction, hands-on operational planning workshops, case study analysis, role-playing security scenarios, group discussions, and simulation exercises to ensure practical understanding and application.

CONCLUSION

Upon completion, participants will have the ability to plan, operate, and manage robust security programs that effectively mitigate risks, respond to incidents, and support organizational resilience and operational excellence.

DAILY AGENDA

Day 1: Security Planning Foundations and Principles

Learn the fundamentals of security planning, aligning security objectives with organizational needs, and the risk management lifecycle.

Day 2: Threat Assessment and Security Plan Development

Conduct systematic threat assessments, identify vulnerabilities, and develop security plans that address operational risks.

Day 3: Managing Day-to-Day Security Operations

Oversee access control, surveillance, patrol operations, visitor management, and coordination of security personnel and technologies.

Day 4: Emergency Preparedness and Incident Response Operations

Design emergency response protocols, coordinate crisis management activities, and integrate security with business continuity planning.

Day 5: Monitoring, Auditing, and Improving Security Operations

Evaluate security performance through audits, KPIs, incident reviews, and continuous improvement initiatives.
